# PRESENTATION

Dear Friends, Dear Colleagues,

*the Congress* is finally back! We regret that the inconvenience caused by the Covid-19 pandemic and the measures taken to counter its spread have heavily influenced our meeting agenda.

We are now happy to announce that *the Congress* scheduled for 2022 has been **definitively moved to February 2023** and that, as for the 2020 edition, it will be held **in Florence**, the most beautiful city in the world, where the most prestigious Clinicians and Researchers will gather together to offer you the most updated clinical information on soft tissue management around teeth and implants.

The soul of the Congress is still the same: to know "*the how and the why*", to give the most updated technical information to bring home, but also to provide you with solid and sound biological bases. A Congress for Clinicians with the same friendly atmosphere as always.

This has been my intent from the beginning, to receive people from all over the world with a spirit of friendship, to make them feel at home and to offer them a space to share clinical, aesthetic and technical information in a setting of art and beauty.

Come to Florence **the 10<sup>th</sup> and 11<sup>th</sup> of February 2023** for the International Symposium on Soft Tissue Management around Teeth and Implants: The Congress you cannot miss!!

I am looking forward to meeting all of you.
